Windsor Castle - 20pts

The original castle was built in the 11th century after the Norman invasion of England by William the Conqueror. Since the time of Henry I, it has been used by the reigning king or queen and is the longest-occupied palace in Europe. St George's Hall is the biggest room in the Castle. It is 55.5m long and 9m wide and can seat up to 162 for a State Banquet.

Walk 2,220 steps a day, which is the length of St. George's Hall x the number of monarchs that have occupied the castle (40).

Tick each of the boxes here as you complete your daily steps. When all boxes are ticked, you have completed this part of your challenge.

DISCLAIMER: It is very important that you warm up and down properly before you begin any type of exercise, as cold muscles are easy to strain. It is also important to consult a physician if you have any type of condition that could affect your health when exercising.
